LIFE POLICYHOLDERS HAD GOOD HEALTH RECORD IN 1954

Owners of American's 80,000,000 ordinary life insurance policies enjoyed an excellent health year in 1954, recording a near low death rate for the year, the Institute of Life Insurance reports.

The 1954 death rate among these ordinary policyholders was 607.7 per 100,000, compared with 621.4 the year before and 766.5 ten years ago. Only once before, in 1950 when the rate was 605.8 was a beter record shown.

Practically all causes of death showed some decline in the year, but the outstanding event of the health year was the continued sharp decline in the death rate from tuberculosis.

Influenza and pneumonia death rates were also at a new low level in 1954 among ordinary life policyholders, the Institute report shows.

Diseases of the heart, including the full range of cardiovascular diseases, remained the leading cause of death in 1954, accounting for well over half of all ordinary life policyholder deaths.

Cancer alone of the chief causes of death showed a slightly increased rate in 1954.

Excessive Mulching Is Bad Practice

Mulches of straw, pine needles, buckwheat hulls, sawdust, etc., serve a useful purpose in the home grounds IF used properly, Jim Smith, County Agent, disclosed.

However, when such materials are heaped around trees, shrubs, roses and other plants, there may be severe injury.

Boxwood and other shallow-rooted plants are most apt to suffer from too much mulch. Heavy mulches of leaves are especially harmful in seasons of wet weather.

About one inch of mulch is all that is needed. Spread it evenly to avoid dams which catch too much water, or ridges which shed the water away from the plants.

Subscription rate: $2.00 a year payable in advance.

CARD OF THANKS

I wish to express my heartfelt thanks and appreciation to my friends and neighbors for their kindness shown me during my recent bereavement in the loss of my brother. Also for the beautiful floral designs, cards and food.

Mrs. J. A. Young.

THE BUY OF A LIFETIME

THINGS YOU SHOULD KNOW IN THE CONSTRUCTION OF A WATER WELL

1. Always insist on a standard form written contract. Never accept a verbal agreement.
2. What is to be the diameter of the well and what is the maximum depth for drilling, if water is not encountered?
3. What kind and weight of casing is to be used?
4. Is any sand to be tolerated in water from the finished well?
5. How is the well to be completed? How is it to be tested? Who is to test it?
6. Rate to be paid per foot for drilling. Is casing included in this price? Is completing and testing included in the price? What are the terms of payment?
7. Will the driller supply the owner with an accurate log of the well and test record?
8. Does the driller carry liability insurance?
9. In case of a dry hole, will any adjustment be made on drilling charges?
10. Does your well driller have a full-time pump department?

Before 1945, less than $1,000,000 a year was spent for cancer research. Since then the American Cancer Society alone has devoted about $35,000,000 to that work.

The American Cancer Society points out that the only aproved means of curing cancer today are surgery and radiation by x-ray or radium.

Appomattox is a growing town.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

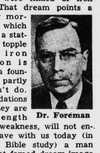
BY DR. KENNETH J. FOREMAN

Background Scripture: II Chronicles 25-26
Devotional Reading: Isaiah 6:1-8.

Iron and Clay

Lesson for May 15, 1955

IN PERHAPS the most famous dream mentioned in the Bible, an immense statue appeared, with a head of gold and the rest made of other materials down to the feet which were mixed of iron and clay. That dream points a good many mor- als; one of which is that such a statue will soon topple over. An iron foundation is strong but a foundation only partly strong won't do. So the foundations of life, if they are partly strength and partly weakness, will not endure. We have with us today (in this week's Bible study) a man who like that famed dream-image was part iron, part clay. He had his strong points and his weak ones, and he finally toppled.



Dr. Foreman

He Loved the Soil

This man was King Uzziah, one of the better kings of Judah. He was a strong king in many ways. It is true, he was king over a very small territory as we see it today. Dr. Stapp's rocket - sled could cover it end to end in about 20 seconds. It is said by his biographer that his fame extended to the border of Egypt . . . not over 200 miles at most. However, while his kingdom was a tiny one as countries go today, the beauty of the Old Testament is that we have something like very large - scale maps of small areas, blown up so we can see the detail. This King Uzziah succeeded in resisting ruinous invasion by the ever-greedy ruthless countries around him. He strengthened the national defense; he reorganized the army; he introduced (then) modern equipment for his armed forces. He conserved the country's small water-supply. He developed farming, both stock-raising and agriculture. He "loved the soil" (II Chr. 26:10.) Best of all, he made a serious effort ("he set himself" as his biographer says) to keep God's laws. He listened to the prophet Zechariah, he was willing to be "instructed in the fear of God." Altogether, for a large part of his life, he gave the country a wise and strong administration because he was himself wise and strong.

He Grew Proud

Nevertheless he finally tumbled down. His clay underpinning at last gave way. The inspired biographer puts his finger on the weakness and names it: "He grew proud"—and adds, "to his destruction." Proud men do not think of their pride as a weakness, they consider that strength and pride go together. So they often do, only the pride tears down the strength. What happened to Uzziah has happened to many a dictator since. He thought he could do as he pleased. He scoffed at the laws he had once supported. He came to think of himself as a human exception to God's law. He declined to take advice. He no longer would listen to men of God. It is this ballooning conceit, this unwillingness to listen to any one, this feeling oneself Destiny's child, that trapped Julius Caesar and Pontius Pilate and Napoleon and Hitler and many another tyrant in history. Pride is always a weakness. It blinds the proud man to his own defects, it blinds him to the wisdom of others. It turns him from a good strong man into a little tin god, from something genuine into something "phony." It isn't only kings of old and dictators of today, it isn't only the famed in history, it can happen to obscure people too.

He Was False to the Lord

The most serious charge brought against Uzziah is that he was "false to the Lord" (II Chr. 26: 16). To put what he did into modern terms, this king-dictator, who had run everything else successfully, at last tried to run the church. The priests took their orders, as they understood it, from God; this brash Uzziah said, in effect, "Now never mind what God has ordered; from now on you will listen to ME." To put it into modern terms again Uzziah wanted to put the Church under the direct control of the State. Against this, the high priest of that day protested, and religious persons will still protest. It may be true that from the standpoint of pure efficiency most churches are not too well run; it is true that with government force back of them churches could get more members—of a sort.

(Based on outlines copyrighted by the Division of Christian Education, National Council of the Churches of Christ in the U. S. A. Released by Community Press Service.)

APPOMATTOX VIRGINIA

AHS Newscast

By Jane Holt

Appomattox, Virginia
May 10, 1955

Dear June,

There is a great deal of excitment both in the Junior and Senior classes this week. For the Juniors their class play is one of the big events of the year. This play is to be presented Thursday, May 12. Members of the cast are Betty Dale Robinson, Robert Carter, Shawn Mabley, Peggy Henry, Betty Mitchell, Alice Ashworth, Mary Walker Evans, Carol Myers, Peggy Wooten, Wesley Newcomb, Lewis McDearmon, Bill Carson and Maynard Beane. This is certainly a fine cast and we wish them the best of luck.

For the Seniors, a big occasion occurs this week-end— the Senior trip. We leave Friday morning at 6:30 and return Sunday night. We are really looking forward to having a wonderful time in Washington.

Last week, the Junior Music Club met and elected their officers for '56. They are:

President, Mary Anna McDearmon
Vice-pres., Eddie Rothgeb
Secretary and treasurer, Terry Phelps
Reporter, Ann Cunningham.

Our baseball team chalked up two more victories last week. They only have a few more games this season, and we surely wish them the best for continuing a most successful season.

May Day, which was last Friday was one of the most beautiful our school has had. The court was very pretty. Many high school and grade Students participated in the annual event.

Wednesday of last week we were most pleased at having for our guest at a chapel program the band from Altavista High School. They gave a fine performance, which we enjoyed very much.

Lucy Perdue has been chosen our valedictorian and Charles Trent our salutatorian for the Class of '55. These two students have achieved a great deal, and we are very proud of them. Congratulations, Lucy and Charles!

Today the F. B. L. A. and the Forensic Club had their monthly meetings. The Forensic Club had a call meeting last week because of their hayride. This hayride was given Saturday night, after which the students went to Holliday Lake to picnic.

This concludes most of the local happenings around A. H. S. for now. Be looking for more news from me next week, same time.

'Til then,
Jane.

School Cafeteria Menu

Mrs. L. L. Stanley, manager, has announced the following menu for the local school cafeteria for next week:

Monday, May 16.- Beef hash with potatoes, buttered carrots, apricots and cookies, milk.

Tuesday, May 17.- Italian spaghetti, corgealed fruit salad, hot rolls, butter and milk.

Wednesday, May 18.- Weiner in roll, baked beans, sliced tomatoes, milk.

Thursday, May 19.- Vegetable soup, saltines, assorted sandwiches, apple sauce.

Friday, May 20.- Fish sticks, hot buttered rice, cole slaw, milk.

About five per cent of lung cancer cases are cured today. Over 50 per cent could be cured if they were diagnosed early enough, the American Cancer Society says.
